

## Closures

Portola molds billions of closures a year in over a dozen locations. Our closures can be found on food, beverage, cosmetic, and personal care products throughout the world. Many of the brand leaders in these industries rely on Portola closures to top their packages.

### NON-CARBONATED BEVERAGE & FOOD [View All Closure Products](#)

Portola manufactures a variety of injection-molded closures to address the different needs of the dairy, water, juice, nutraceuticals, and other non-carbonated beverages.

Portola has a full-line of snap-on, snap/screws, and screw caps in sizes ranging from 26mm to 43mm. Portola was the original inventor of the snap-on technology for closures. And also provides many custom solutions for our customers.

Portola is a leading manufacturer of tamper-evident closures for 5-gallon water bottles. Closures include PL snap-on caps and Non-Spill® caps, with or without foam liners.

## COSMETICS & PERSONAL CARE

Our

Portola Tech International division has one of the largest stock catalogs of compression- and injection-molded closures for cosmetic and personal care products. We specialize in developing private design packages. Portola Tech International has been providing quality stock and custom closures for over 50 years.
